**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions that are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3 and 8-12, drawn to method of treating selected lung diseases and inhibition of T cell activation.

Group II, claim(s) 4-7, drawn to method of manufacturing a pharmaceutical.

The inventions listed in Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT 13.2, they lack the same or corresponding special technical feature for the following reasons:

In accordance with PCT Rule 13.2, unity of invention exists only when there is a shared same or corresponding special technical feature among the claimed inventions. All the groupings are directed to methods of utilizing FLINT polypeptides, however each group has a different apparent special technical feature not shared by the remaining groups. Group I has the apparent special technical feature of a method of utilizing

Art Unit: 1647

FLINT polypeptides in treating selected lung diseases and inhibition of T cell activation, while Group II has the apparent special technical feature of a method of utilizing FLINT polypeptides in the manufacture of a pharmaceutical. The special technical feature of Group I and II are distinct because they claim different starting material, different methodologies, different objectives, and different outcome measures. Thus, the inventions are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
